BUSINESS REESUMED AT VALAPAIRASO

Business Houses Open for First Time Since Ruake.

$4,000,000 FOR THE RELIEF FUND

A Movement Is on Foot to Organize a Company to Facilitate the Raising of Money Necessary to Re-Construct the City of Valparaiso.

Valparaiso, Aug. 24.—Some of the business houses here are opened for business for the first time since the catastrophe on Thursday.

Telephone and telegraph communication with Santiago has been re-established, but the lines are used almost exclusively by the government officials.

The city is still under martial law. Traffic ceases at 6 o'clock in the evening, and everybody is compelled to take some part in the work or restoring normal conditions. As a first installment, the government has appropriated $4,000,000 for the relief of the destitute. The custom house was reopened today and traffic by water and by rail has been resumed.

The postal service is now in operation. One of the greatest difficulties encountered by the authorities is the interment of the bodies recovered from the ruins, as all the cemeteries were destroyed. At the various temporary morgues heaps of coffins have accumulated, awaiting the designation of their place of burial. The work of recovering the bodies is being pushed to the utmost in order to avoid an epidemic, in fear of which many families are leaving the city. Through the whole length of Brazil avenue and all over Victoria square, large sheds have been constructed to shelter the homeless from the severe rains.

Survivors of the earthquake say that, during the shocks it was impossible to stand erect without support.

A movement is on foot to organize a company to facilitate the raising of money necessary to reconstruct the city. It is proposed to advance the sums needed without interest for the first six months. The plan is to construct the new buildings of light materials and to lay out streets so they will have a uniform width of 20 meters. The province of the north and south, which have not suffered from the earthquake are sending supplies of food and money to the stricken cities and towns.

The department of public works at Santiago has appropriated $100,000 for the construction of sheds to shelter the refugees from Valaparaiso and elsewhere, who continue to arrive at the Chilean capital in large numbers. The railroad line between Limache and Quilpue in addition to suffering severely from the earthquakes of August 16th, has several enormous crevices, newly made, in its vicinity.

Valparaiso still is without street lights, but order is maintained owing to the severity of the authorities, who shoot all persons caught committing robberies.

Among the buildings which fell at the time of the earthquake are the palace of justice and the Maritime prefecture.

Witt Submits to Knife.

St. Petersburg, Aug. 24.—Count Witte, the former premier, submitted to an operation at Frankfort-on-the Main, which was performed by Professor Espina. A telegram received here from the count declares that his health was the sole reason for his visit to Frankfort, all rumors of political aims to the contrary notwithstanding. He will be obliged to remain at Frankfort or in the vicinity in order to affect a cure.

First Srated by Bolt.

Arcadia Fla., Aug. 24.—Two large warehouses of the Peace River Phosphate Milling company at Hull were struck by lightning Wednesday afternoon, caught fire and were completely destroyed with their contents, valued at $60,000. The occupants of the building were stunned and were rescued with great difficulty from the flames.

Want to Know Intention of Company.

New York, Aug. 24.—The brokerage offices of M. J. Sage & Co., in this city and in Jersey City, which suspended Wednesday, were visited on Thursday by a large number of the patrons of the company and its various agents in other cities who wanted to know what the company intends to do about settling its accounts. It is said the firm has 25,000 accounts to be adjusted throughout the south, a large number of which are located along the route of two wires to New Orleans, which it formerly operated. According to one report the losses amount to $2,000,000. It was expected that formal action looking toward the appointment of an assignee would be taken today and that possibly an attempt might be made to organize a new company, in which some of the members of the other concern would be included.

Will Bore 45 Tunnels.

San Francisco, Aug. 24.—The Western Pacific railroad will bore 45 tunnels in eastern California between Orrville and Beckwith Pass. Instead of going around mountains, the Western Pacific is going through them. The longest tunnel is at the head of Spring Garden, 12 miles east of Quincy. This cut is under the ridge dividing the north and middle firks of the Feather river. This tunnel will be 7,000 feet when completed. The next tunnel on the road will be the one under Beckwith Pass. This will be over 4,000 feet long, and it is being bored at both ends. The third tunnel will probably be the most difficult engineering feat of all as it will be cut through solid rock for a distance of 1,200 feet. This will be north of Quincy on Spanish creek.

Telephone Girls Strike.

Chicago, Aug. 24.—Two hundred telephone girls employed in the central exchange of Chicago Telephone company struck Thursday badly crippling the service. The cause of the strike was an order issued by the company declaring the girls at "central" to enter the building through a rear door, which, in order to reach it, they were compelled to go through a passageway 100 feet long. The girls declared that the passageway is muddy even in the daytime and dark, slimy and slippery at night. There are three saloon entrances on the alley and the girls declared that they are annoyed by the hangers-on of these places.

Franklin & Billon Suspend.

New York, Aug. 24.—The suspension of the firm of Franklin & Billon, members of the Consolidated Stock Exchange, was anounced Thursday. The inability of the firm to collect additional margins from customers after the upward movement of the market last week is reported to be the cause of the suspension. A member of the firm today estimated the liabilities at $100,000 and assets at $30,000 to $40,000. He said the firm hopes to compromise with its creditors and resurse operations.

Insurance Loss Adjusted.

San Francisco, Aug. 24.—The insurance loss on the Palace hotel has been adjusted at $1,302,610. This is more than the insurance companies will have to pay for the total insurance of the building was only $1,265,000. It being a total loss, therefore, a liability of a trifle over a million and a quarter will be distributed among 98 companies involved in the loss. This is said to have the largest loss upon a single risk ever adjusted in this country.

Suspension of Race Tracks.

St. Louis, Aug. 24.—For the first time since the passage of the anti-betting law caused a suspension of all the race tracks in the state, a race meeting will be held in St. Louis county. Barney Dreyfus will give a strictly closed meeting at his farm in October. The meeting will last five days, and will be on invitation affair.

Will Take Manchuria's Place.

San Francisco, Aug. 24.—The liner Coptic, lately in the service of the Occidental and Oriental Steamship company, but now belonging to the Pacific Mail fleet, has been ordered to sail from Hong Kong, Sept. 22, to take the place of the Manchuria.

SMITH LANDSLIDE OVERWHELMS GEORGIA

Carries Over One Hundred Counties in Primary.

NO SECTION ESCAPED DELUGE

Fulton, Floyd, Bibb, Richmond and Thomas, of "Big Six," Are for Hoke Smith, and Estill Saves Chatham by Uncomfortably Small Margin.

Atlanta, Aug. 24.—The result of the state primary is a signal victory for Hoke Smith.

The returns, practically complete, show that Mr. Smith has carried 100 counties. In several counties it will require the official count to determine the result, and from several of the more remote counties no reports of a definite character have been received. The present indications are that Mr. Hoke Smith is assured of 264 delegates to the state convention out of 366 comprising the membership of that body.

It means, in all probability, his nomination by acclamation at the state convention, which meets at Macon on Sept. 4.

The only other contests on the state ticket were those for the offices of comptroller general and state school commissioner. These were completely overshadowed by the contest over the governorship—so completely that most of the voters were not aware that such contests were on until they undertook to mark their tickets. Neither Mr. Sanford nor Mr. Johnston made the slightest impression, Comptroller General Wright and State School Commissioner Merritt carrying every county so far as reported.

Three contests for congress were interesting side issues. Two of these were furnished by the first district. The fight for the short term to fill the vacancy caused by the death of Colonel R. E. Lester brought out a separate set of candidates than that for the long term. J. W. Overstreet, of Screven, over three opponents. The long term was won by Hon. W. W. Sheppard, of Savannah, over Hon. J. A. Brannen, of Bulloch.

In the third district Congressman Lewis has defeated Hon. Dudley M. Hughes after a spirited contest.

There were a number of contests for judgeships, and for senatorships, but these had only local interest.

United States Senator A. O. Bacon had no opposition for renomination, and probably polled every vote cast in the primary.

The follows table shows the counties carried by each candidate in the gubernatorial race and the number of delegates to which each county is entitled in the convention:

GENERAL BANDERA, INSURGENT, KILLED

Was Operating Against Cuban Gouernment.

TWO FOLLOWERS MET LIKE FATE

A Force of 200 Mounted Rural Guards Which Had Long Been Seeking Insurgent Force Commanded by Bandera, Succeed in Their Efforts.

Havana, Aug. 24.—General Quentin Bandera, the negro leader of Havana province, who recently headed an insurgent band and began operating against the government, was killed early Thursday morning in an encounter with rural guards.

The fight with Bandera's band occurred at 3 o'clock. A force of 200 mounted rural guards which had been for three days seeking the insurgent force commanded by Bandera, finally succeeded after the veteran commander had pitched his camp for the night.

In addition to Bandera, two of his followers were killed, but none was captured.

The insurgent forces commanded by Pino Guerra have captured San Juan de Martinez, the terminus of the Western railroad and have occupied the town and railroad station.

There was no bloodshed at the occupation of San Juan de Martinez, according to the reports just received. The small force of rural guards which held the town fled at the approach of the insurgents.

New York, Aug. 24.—It was announced from Havana Aug. 20 that General Quentin Bandera, who greatly distinguished himself in the Cuban war for independence, had left Arroyo Arenas, 12 miles west of Havana, with about 20 insurgents, whom numbers it was believed were augmented later by a force armed with guns and ammunition, which set out from Havana. The next day it was reported that Bandera had been wounded in the head in a skirmish.

Bandera was about 60 years old. He took part in the ten years' war, as well as in the war for Cuban independence. He was well known in every province of Cuba and had great influence with the negroes. When in Havana, Bandera was in the habit of gathering crowds of negroes about him and making speeches to them on the ingratitude of republics. On one occasion he went to the senate chamber and delivered a violent speech criticising the government for not giving him an office. Soon afterwards he was appointed doorkeeper of the house of parliament. The position which Bandera aspired to was that of chief of police.

Chicagoans Suffer from Heat.

Chicago, Aug. 24.—Thousands of people again thronged the parks on Wednesday night, seeking shelter under the skies from the heat of the city. At 3 o'clock Thursday morning the mercury was above 80. The suffering of the tenement districts was intense and the authorities declare that the inability of the poor people to purchase ice and poor milk is causing an alarming death rate among children. In the crowded ghetto district, where several families are often crowded in one room, the conditions are almost unbearable. Thousands fled to the open streets and alleys and passed the night and the porches and fire escapes of the tenements were crowded with women and children. A serious result of the prolonged heat wave under which Chicago has been suffering, has been a marked increase in the crime record.

Will Construct New Railroad.

Phoenix, Ariz. Aug. 24.—News is received here that J. J. Hardwick of the Phoenix and Los Angeles, has secured a concession from the Mexican government for the construction of a railroad 50 miles long in Sonora. The initial point of the line will be Cabo, a division point on the Sonora road, thence via Copet and Bellen Mines to Ures and Kugon through the Yaqui river valley.

FACTS ABOUT THE G. & G. EXTENSION

Contract for Grading Fifty-two Miles South of Crystal River

AWARDED TO W. H. JONES

Work Will be Pushed Through Without Further Delay—Contract Calls for Grading as Far South as Brooksville. Road Will be Finished Soon.

The Times-Union of the 23 inst. has the following to say regarding work on the extension of the Gainesville and Gulf Railway:

"Work is to be commenced by September 1, and pushed to an early completion on the Tampa and Jacksonville Railway.

"The contract was awarded in Gainesville yesterday by General Manager C. N. Atkinson to W. H. Janes of Mayo, Fla., for the grading of fifty-two miles of the roadbed for the Tampa and Jacksonville Railway Company.

"Mr. Jones arrived in the city last night from Gainesville and when asked for details of the award, stated that while he could not yet go into details, he could, and would, state that it was his intention to have the work begin by September 1, and pushed as rapidly as possible.

"The portion of the road embraced in the contract awarded Mr. Jones extends from Crystal River to Brooksville, a distance of twenty-eight miles, and three from Brooksville to the Withlacoochee river, on the route to Tampa, a distance of about twenty-five miles.

"The Tampa and Jacksonville Railway Company is the new name for what has formerly been known as the Gainesville and Gulf Railway. The new company will push the work and it is their intention to have a road completed and in operation as soon as possible from Jacksonville to Tampa. It is claimed that the proposed route will be at least fifteen miles shorter than the Seaboard Air Line and forty-three miles shorter than the A. C. L. railway, via. Sanford.

"Mr. Jones expects to establish headquarters in Jacksonville and will sublet the contract in short sections, so as to have the work done as speedily as possible."

TUTTLE FROM COLORADO.

Says Colorado is a Fine State, But He Will Be Content With Florida.

H. H. Tuttle, a well known resident of Gainesville, has returned from Colorado, where he has been for the past three months. Mr. Tuttle is a carpenter of exceptional ability, and for this reason is capable of securing a position anywhere at any time. He held a good position here until a few months ago, when he lost his wife, and since which time he has been discontented, as the scenes of the last days proved too much for him, he thought. He finally decided to go West, and Colorado was his objective point. He spent a greater part of his time at LaMar, Colorado, but visited several other places.

"Colorado is a good country," he said Friday in speaking to a representative of The Sun, "but in view of the fact that you see me back in Gainesville you may infer that I think Florida is pretty good, too. I am in Florida again, and I propose to remain here as long as the good Lord spares my life, for I do not believe there is a better State in the Union, or a better country on the globe for the average man. While I have been the victim of the saddest and most heart-rending circumstances here, that would have happened anywhere, and I am willing to stick to Florida in general and Gainesville in particular."

Mr. Tuttle stated that the wage scale in Colorado is greater than here, but that the cost of living is greater, which makes the wages comparatively the same.

CHITTY'S READY WIT.

A Little Incident One Time Still Reminds Him To Be Certain.

"I'll tell you, boys, when a fellow's 'skeered' he's likely to do most anything," remarked Henry M. Chitty, in talking with a number of friends who were conversing over "the dangers of this world," a day or two ago

"I know what I am talking about," he continued, as some of his companions began looking at each other with a doubtful twinkle in their eyes, while others looked at Henry, who is regarded as a nervy kind of fellow who never got "skeered" of anything.

"Tell us whatever frightened you?" ventured one of the coolest of the crowd.

"Well, I'll tell you how it happened," continued Mr. Chitty. "Several years ago, down at Micanopy where I was born and raised, there was an outrageous murder committed, and a 'mob' was formed to hunt down the dastardly murderer and attend to him like people used to do in those days, before we had special terms of the courts to try such fellows. Naturally, full of ambition, etc., I joined the gang, and, with two or three more fellows, was dispatched through an old corn field, where it was said the negro who committed the crime was in hiding.

"It was a bright moon-light night, and, with the others, I took an alternating row. The rows were about a quarter of a mile long, and naturally our little band became scattered. About the third row I had traversed, and about the middle of the row, something suddenly stopped my horse. I looked up, and before me stood a great big man, with outstretched hands. I raised my gun and fired quickly, discharging the contents of two barrels of buckshot into the object.

"The shots naturally attracted my companions, who came rushing up to the scene from every direction. 'I have got him, boys! I have got him!' I exclaimed. We all dismounted and cautiously surrounded the form, which had been thrown to the ground by the force of the two loads I had pumped into his body—

"And imagine how badly I felt, and what a good joke the 'boys' had on me, when they discovered that it was a scarecrow.

"I have never yet quit paying obligations to my friends for this joke," concluded Mr. Chitty, as he arose to sell a fellow a pair of suspenders who remembered the incident.

THE SUDDEN DEATH OF MR. DAVIDSON

Suffering From Heart Failure, Fell Dead at Fairbanks.

FATHER OF MRS. LYNCH

The Death Came As a Sudden and Horrible Shock to Her, and Her Friends Sympathize Deeply With Her—Funeral Will be Held Monday.

As a result of heart failure, Joel S. Davidson, millwright and engineer at the plant of John P Lynch, Fairbanks, fell dead while on duty Thursday.

Deceased was a native of Lockport, N. Y., and was sixty-seven years of age. He was a veteran of the Civil War, having served with credit the Union army in a New York regiment of infantry. He has been for many years in Florida, however, and resided in and about Jacksonville until a few months ago, when he accepted a position with Mr. Lynch at Fairbanks. He was the father of Mrs. Lynch, to whom he appeared greatly devoted.

At the time of this fatal occurrence Mr. Lynch, proprietor of the mill and a son-in-law of the deceased, was in Jacksonville, having been summoned there on business. As soon as he learned the sad news he returned immediately to Fairbanks.

The remains were brought to this city and turned over to Undertaker McClellan. The body was embalmed, and, pending the arrival of relatives, many of whom reside in far-away States, the remains will be in his charge. The funeral will be held Monday, the interment being in Evergreen cemetery, this city.

Friends of Mrs. Lynch in this city and elsewhere will extend sympathy in her hour of bereavement.

A Serious Runaway.

Considerable excitement prevailed upon the streets about 11:30 o'clock Friday morning, when the horse attached to the delivery wagon of J. H. Vidal, the groceryman, decided to give an exhibition at sprinting.

The animal became frightened at something, evidently a huge piece of paper that was wafted by the gentle summer breeze before him, at the corner of West Main and Masonic streets. Without warning he darted suddenly up the street, and the little negro boy who was driving yelled vigorously for help. In the meantime the speed of the animal was increasing, and at the corner of West Main and Union streets the vehicle collided with an iron post, which threw the boy off the seat about fifteen feet into the street, and put the wagon out of business. The horse, however, dragged what was left about half-way down the block and stopped.

As a result of this runaway Mr Vipal must expend considerable money in replacing two wheels, to say nothing of the inconvenience he will experience in being out the use of the wagon.

A GREAT GAME.

Fats and Leans Entertained Their Friends at Baseball Friday.

Notwithstanding the threatening weather, a good crowd was present at the baseball park Friday afternoon to witness the annual contest between the Fats and the Leans, the proceeds from which went for the benefit of the Cemetery Association.

The game was intended to have been pulled off Thursday, but the heavy rain prevented, and a postponement of one day was ordered. All merchants were generous enough to close their stores for a half day, giving the clerks and employes an opportunity of witnessing what promised to be the hottest game of the season.

The game resulted in a draw, the score being eight to eight. The Leans claim the victory, however, as at the end of the seventh the score stood eight to six in their favor. Only the first half of the eighth was played, rain having interfered with the game. In this half, which belonged to the Fats, the score was tied, the Fats having made two runs. It would have been the Leans' turn on the second half of the eighth when the umpire was compelled to call the game off.

The contest, as was to be expected, was a most amusing one, and those who attended declare that they got their money's worth. One spectator was sarcastic enough to declare that he "got his money's worth" on the third inning.

ELKS' HOME PLANS.

They Were Submitted in Sketch at Meeting Thursday Night.

A most interesting meeting of Gainesville Lodge No. 999, B. P. O. E., was held Thursday evening, when two candidates were initiated into the mysteries of Elkdom.

Another interesting feature of the meeting was the fact that the building committee presented sketches of plans for the elegant new home, which will be located on the corner of West Liberty and South Pleasant streets. The plans, which are being made by Architect Edwards of Columbia, S. C., will be up-to-date in every way.

The committee on building was continued, with instructions and power to act. As soon as the plans are completed, which will be within the next few days, bids will be advertised for and the contract for alteration of the building which at present stands as a magnificent residence, will be let.

While this home will not be as large as some, it will be ample for the accommodation of Gainesville Lodge and its friends, and will be among the most modern and up-to-date in the State.

Elks to High Springs.

T. B. Ellis, Jr., and J. D. Stringfellow returned Monday from High Springs, where they have been on a sad mission. As representatives of Gainesville Lodge No. 999, B. P. O. E., they went for the purpose of rendering any assistance possible to the bereaved family in the death of their brother Elk, E. C. Dickey, who died at High Springs early Thursday morning.

Mr. Dickey was a member of Lake City lodge, but inasmuch as Gainesville was so much more convenient of access, the Gainesville lodge decided to offer aid, and these two brothers willingly responded.

The sympathy of all brother Elks is with the bereaved family in their troubles.

COUNTY FAIR ASSOCIATION.

Meeting Called for Monday Afternoon at Secretary's Office.

All members of the Alachua County Fair Association for 1905 are requested to meet at the office of the secretary, County Tax Assessor W. W. Colson, in the court house, Monday afternoon at 4 o'clock. This is an earnest invitation, and it is hoped that a respectable number will be in attendance. There are many prominent business men within almost a stone's throw of the court house who can and should attend, as it is very important that the business of last year's transactions be cleared up before the county commissioners are willing to make an appropriation for the coming State Fair, which will be held in November.

It will be remembered that at the last regular meeting of the county commissioners the question of an appropriation was brought up, when the board positively refused to take any action in the premises until a report of the expenditures of the County Fair Association for 1905 had been made. This, it appears, the manager of exhibits has been ready and anxious to do, but two efforts after the State Fair failed to get the county body together.

President Brown of the State Fair Association has given notice that he would accept the invitation to appear before the Board of County Commissioners on September 4, and by that time the report must be submitted to that board.

Let everybody come out Monday afternoon, that this matter may be settled, and Alachua county can retain her excellent reputation at the next State Fair.

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is comfort in the knowledge so often expressed that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

NOTICE.

Whereas, at the Fall term, 1901, of the circuit court of Alachua county I was convicted of murder and sentenced to State's prison for life, notice is hereby given that as soon after the 4th day of Sept., 1906, as I can be heard, I will apply to the Pardoning Board at Tallahassee, Florida, for a pardon.

Theodore Roosevelt is going to Panama, and if the canal dirt doesn't fly some of the bosses will.

Rockefeller, according to a statement recently handed down by his physician, "hasn't had anything to do with the Standard Oil Company for years." What lucky man is getting the 35 per cent dividends?

If there is a chance to boom business, boom it. Don't put on a long face and look as though you had a stomach-ache. Hold up your head, smile and look for better things. Hide your little hammer, and try to speak well of others, no matter how small you may know yourself to be.

There are pillows wet by sobs; there are gentle sensitive natures seared and warped; there are old-time friends separated and walking their lonely ways with hope dead and memory but a pang; there are cruel misunderstandings that make life bare—these are but few of the sorrows that come from the crimes of the tongue.

It is gratifying to note that many of our citizens are taking active interest in improving their homes and grounds. A little effort on the part of each citizen would make Gainesville the leading city of Florida in point of beauty and attractiveness. Nature has been liberal with us in the matter of natural resources and it only remains for us to develop them.

A Western paper says that you can tell a successful farmer by looking at his horses; you can tell a slovenly woman by looking at her hair; you can tell the dry goods box statesman by looking at the patches on the bosom of his pantaloons; you can tell the poisonous serpent by the bluntness of his tail, but the easiest thing of all, you can tell the enterprising merchant by a glance at the local papers. This is not divine revelation, but it is business and gospel truth.

A TARIFF DILEMMA.

In Iowa the Republican factions are discussing the question whether the party has "cut loose from the President" by nominating Cummins, who is not a stand-patter. It does seem rather unfortunate for the Cummins faction to appear in that light, but they will have to lay the blame on President Roosevelt for deserting them and now being on the wrong side of the tariff issue. But a much more important matter for the voters of Iowa to discover is how the Republican candidates for Congress stand on the tariff issue. Are they pledged to "stand pat" and refuse to revise the tariff?—that is, carry out the agreement made between President Roosevelt and Cannon to run a stand-pat campaign. Or do any, or all of those candidates for Congress stand with Gov. Cummins, who has been for tariff revision? It would seem that the Republican voters of Iowa who believe that the tariff shelters trusts will have to use great discrimination when they vote, and need to question their candidates for Congress as to just where they stand on the tariff issue. To vote a straight Republican ticket for Congressmen would be an endorsement of the "stand-pat" agreement and be looked upon as a command to put off tariff revision for an indefinite period.

In every city there are movements which call for the expenditure of money. Some of these are of a distinctly public character, and are paid for thought taxation. Others are of a semi-public character, and for them the funds must be raised by voluntary contributions. These must come from the men who are doing the business of the place and who have the money. There is no other way. The man who has the money is the man who must pay the bills, if they are to be paid. Most enterprises of a public nature which have for their object the bettering of conditions, business and otherwise, in a city will, directly of indirectly, return more than the money expended to those who pay it.

Many stories have been told about the long telegraphic messages sent by women, as if the feminine mind were incapable of expressing itself concisely. How false and slanderous such an impression is is well shown by the following incident. A gentleman went to London on business. As he left he said something to his wife about buying her a new dress. Just before starting homeward he wired to his wife: "Which shall I bring you—a diamond ring or a silk dress?" The reply was concise and explicit—"Both."

The United States is the only country in which the son of the poorest mechanic or laboring man may become its ruler and where the daughter of a farmer may become the wife of a President and the mother of Senators. It is the only country where all earthly honors are within the reach of every citizen and where it depends upon the individual himself whether he will be a Senator or a street-sweeper, a railroad section hand, a millionaire or a pauper, a general or a policeman, a banker or a bankrupt.

Another Western millionaire has married an humble hotel maid. It was love at the first sight as she twirled a feather duster with careless grace in the corridor. This infatuation of our capitalists for the hotel help is a theme to which only Whittle could do justice. The American heiress, however, is not on record as marrying a bellboy or a porter. She doesn't care so much for a uniform as for a title.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Multi-millionaires are the Captain Kidds and Robin Hoods—pirates on the high seas of finance.

What do costly sepulchers and stately mausoleums amount to if we have no enshrinement on human hearts that love us?

"Woman!" was the subject; Rufus Choate delivered the toast. He said: "I would wish to be my wife's second husband."

Marry the girl that refuses to stay in the parlor while her mother is in the kitchen. Ten to one she'll make you a happy man.

Don't be a sponge. Some people want to absorb everything in sight and give out nothing. Are you a sponge—do you sponge?

The one that loves you most may believe evil report with the mind and deny it with the heart. The truth is, the one who really loves will never forsake.

Don't advertise your powers too freely; you thereby increase your responsibility many fold. The great outside world levies its demands based on your personal claims.

You can't love one in whom you have no confidence. Trust, or faith, is the very heart of love. When it ceases to throb love takes its flight. To confess one is to be assured of the other.

There is a sense in which the age of inventions lays a deadly paralysis on the finer arts. For instance, the modern girl is not accomplished because she grinds off an Hungarian rhapsody with the crank of a pianola.

Some parents are more careful about the keeping and training of their bull-pup than they are about their children. If the bull-pup should outlive the aforesaid parents it will be a clear case of "the survival of the fittest."

The white prisoners escaped from the county jail in Pensacola by digging through a brick wall about 18 inches thick.

R. H. Leseane, the naval stores operator who was shot by a negro at the Earnest camp recently, is now reported as being in such a condition that he will possibly recover, but he had a very narrow escape from instant death.

The contract for the erection of Pensacola's new and modern city hall was signed Thursday on behalf of the city by Mayor Bliss, and Contractor Chas. H. Turner will commence at once demolishing the old buildings which occupy the site.

Another big banking institution is to be organized in Pensacola at an early date, with some of the most prominent capitalists and business men of the city as stockholders. It will be a banking and trust company and will have a capital stock of $200,000.

Work on the removal of the wooden buildings to be replaced by a new modern brick, the home of the new postoffice of St. Petersburg, was begun Monday. The work will be pushed rapidly so as to allow the new quarters to be ready by November 1.

People of Pablo Beach are almost a unit in favor of organizing the village into a town government, and at the coming session of the State Legislature it is very probable that steps will be taken which will result in the municipality of Pablo Beach being established.

The handsome and commodious steamer Falcon, which is to be put on the run between Tampa and St. Petersburg, by the Tampa Bay and West Coast Transportation Company, is expected to arrive there in a few days, and will be put into commission soon after landing.

Orange county has commenced active preparations for an exhibit of its resources at the Florida State Fair. A resolution was passed by the board of trade of Orlando heartily endorsing the Fair and energetic work was pledged in behalf of a fine display from the old reliable progressive county of the orange belt.

The wet or dry election in Madison county Friday aroused lively interest, both sides working with enthusiasm. The indications are that the county has gone dry by an overwhelming majority. Madison precinct gave a dry majority of seventy-seven. Returns from the outlying precincts have not been received, but enough have reported to make the result sure. Temperance people are rejoicing over the victory.

The street car strike, which has been on in St. Petersburg for the past week, was settled Monday afternoon to all parties concerned satisfactorily. A conference was held at LaBrisa between the strikers and Manager Urban, and it took but a few minutes to come to an agreement. After the agreement was over a car was turned over to the conductors and motormen and they carried the car over the lines in the various parts of the city, hurrahing and having a good time in general.

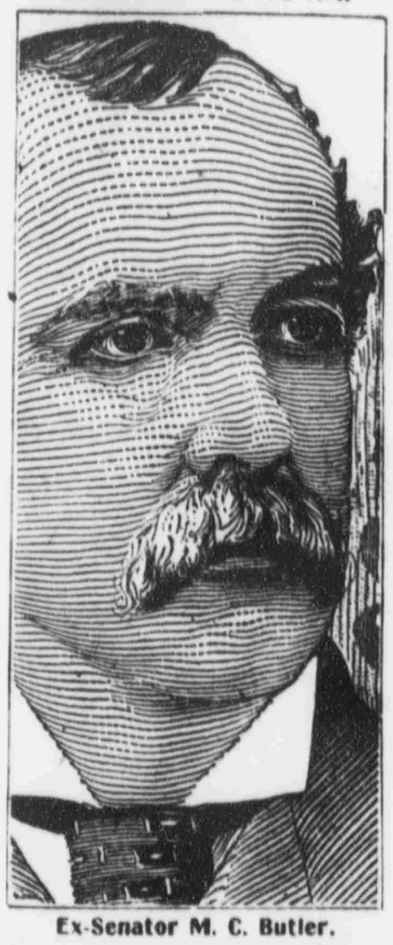
UNITED STATES SENATOR FROM SOUTH CAROLINA PRAISES PE-RU-NA.



Ex-Senator M. C. Butler.

Dyspepsia Is Often Caused By Catarrh of the Stomach—Peruna Relieves Catarrh of the Stomach and Is Therefore a Remedy For Dyspepsia.

Hon. M. C. Butler, Ex-U. S. Senator from South Carolina for two terms, in a letter from Washington, D. C., writes to the Peruna Medicine Co., as follows:

"I can recommend Peruna for dyspepsia and stomach trouble. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine, besides a good tonic."

CATARRH of the stomach is the correct name for most cases of dyspepsia. In order to cure catarrh of the stomach the catarrh must be eradicated.

Only an internal catarrh remedy, such as Peruna, is available.

Peruna exactly meets the indications.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine, for those troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

The resolution specifies that Governor Cox be one of the committee.

Galveston's Sea Wall

Makes life now as safe in that city as on the higher uplands. E W Goodloe, who resides on Dutton St., in Waco, Tex., needs no sea wall for safety. He writes: "I have used Dr. King's New Discovery for Consumption the past five years and it keeps me well and safe. Before that time I had a cough which for years had been growing worse. Now it's gone." Cures chronic coughs, la grippe, croup, whooping cough and prevents pneumonia. Pleasant to take. Every bottle guaranteed at all drug stores. Price 50c and $1.00. Trial bottle free.

Rainstorm Does Great Damage.

Kansas City, Aug. 24.—A terrific rainstorm prevailed in Kansas City and vicinity early Thursday causing more or less serious damage. In Kansas City 5.93 inches of water fell a record for the time, three and a half hours. Low lying lands were flooded and the police and fire departments were called on to rescue persons from basements in Little Italy, in the north end of the town, and in the east and west bottoms, where the water entered many small houses. Several downtown basements were flooded and goods damaged.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Thirteen Firemen Injured.

Chicago, Aug. 24.—Thirteen firemen were either overcome by smoke or injured by explosions while fighting a fire in the paint manufacturing establishment of John Lucas, on DesPlains street, early Thursday. The fire which is believed to have started from spontaneous combustion, caused a loss of $65,000.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists, send 10c in stamps for sample to The Herpicide Co. Detroit, Mich.

READ THIS.

Stevenson, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. Daniel.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 29, St. Louis, Mo. Send for testimonials. Sold by J. W. McCollum & Co.

An Informal Dance.

A number of the young people enjoyed an informal dance at the East Florida Seminary barracks Thursday evening. Eight couples participated in the Terpsichorean art, although there were many more present. Music was furnished by an immense graphophone, and altogether the evening was most enjoyably whiled away.

A. L. Daughtrey of Rocky Point was in the city yesterday. Mr Daughtrey has just returned from Philadelphia and points in Tennessee, where he has been for the past few weeks with his family. The family remains in Tennessee, where they expect to sojourn for the balance of the summer.

Miss Earnestine Fagan expects to make her departure today for Jacksonville, where she will spend a few days with relatives. From Jacksonville she will proceed to Lexington, Ky., where she will enter a woman's college. Friends of the young lady hope to see her return next spring in fine health.

Mrs. Maretta C. Brooks has returned from the country and is now ready for music pupils in piano and voice culture. Mrs. Brooks has been very successful in securing a large class of pupils and giving entire satisfaction. Being a graduate of music she is a first-class teacher, having a thorough knowledge of music in all its branches.

Rev. Francis H. Craighill, rector of Holy Trinity Church, has received information from Rev. J. L. Patton of Ashland, Va., that his daughter, who has been quite ill with typhoid fever, is very much improved. This will be gratifying information to the numerous friends of the Patton family in this city, who spent last winter here.
